## SUMMARY

Product and growth professional with 2 years of experience across user research, user behavior, experimentation, and conversion funnels including co-founding and building a product end-to-end. My product management projects demonstrate hands-on experience in product strategy, PRD writing, prioritization frameworks and vibe coding.

## PROJECTS

### Zomato: Quick Reorder

Feature Design | Consumer UX | Product Strategy

Identified reorder friction for returning users; designed and validated a one tap ordering feature.

- Mapped full reorder journey; pinpointed 3-tap drop-off as the primary retention leak.
- Prototyped 2 interaction models (card vs. bottom sheet); selected bottom sheet based on user behavior analysis.
- Prioritized using RICE framework: 8M reach, 80% confidence, 3-week effort → RICE score 6.4M; flagged as high-priority.
- Defined success metrics: reorder rate, session-to-order CVR, and 30-day retention uplift.

### Orthians: Product From Scratch

0→1 | Primary Research | GTM Strategy

Co-founded a D2C memory foam brand; led product, research and go-to-market end-to-end.

- Conducted 15+ primary user interviews; surfaced that product value takes 20-25 days, informing a 30-day return policy.
- Benchmarked competitors (shape retention at 12–14 months vs. market 3–4 months); positioned product at market price.
- Developed channel strategy and GTM plan; directed content system and B2B outreach funnel.

## WORK EXPERIENCE

### FERMENTIS LIFESCIENCES, Product Associate

AUG 2025 - PRESENT

- Owned B2B digital platform growth, drove **53% increase in organic sessions** (15.7K → 24K) and **2x impressions** (517K → 1.11M) in 6 months.
- Identified discoverability gaps in B2B buyer journey; prioritized page-level fixes that moved search position from **42.5** → **22.5**, strengthening top-of-funnel reach.
- Independently scoped, built, and shipped 6 landing pages, and **150% growth in monthly inbound queries** (80 → 200).
- Ran user discovery sessions with procurement teams; redefined ICP and reduced sales qualification time.
- Led cross-functional alignment across R&D, regulatory, and BD teams to map product messaging to buyer pain points.

### ORTHIAN'S POLYCRAFT, Co-founder- Product & Growth

JAN 2025 - AUG 2025

- **Managed end-to-end product strategy:** market research, user interviews, product positioning, pricing, and GTM planning.
- Designed channel mix and budget allocation across digital platforms; built SEO content architecture for organic acquisition.
- Launched product website based on VOC and competitor benchmarking and defined content strategy.

### BLUE DIGITAL, Product Associate

JUN 2024 - DEC 2024

- Managed **6 digital products** across clients, owned acquisition, on-site experience, and retention strategy end-to-end.
- Diagnosed user drop-off patterns via CRO and analytics that **reduced bounce rate by 24%** across accounts.
- Structured paid acquisition experiments across ₹2L budget, **64 leads at 25% lead-to-close rate**, validating channel and targeting decisions.

## EDUCATION

Keshav Mahavidyalaya, University of Delhi, B.com (Hons)

CGPA: 7.37, Jun 2021 - Jun 2024

Kulachi Hansraj Model School, Senior Secondary, 12th

95.75%, Mar 2020 - Apr 2021
